

Driven.

The 1012 & the 2012

The 1012 and its successor the 2012, two of the most popular DEUTZ engines. Used to drive a wide range of applications including telehandlers, screeners and forklifts. Lift the bonnet of a lot of your equipment and chances are you will find a 1012 or a 2012.

Whether in the four or six cylinder version, these water cooled, common rail engines are robust and give a high power density. To keep your 1012 or 2012 running efficiently always use DEUTZ Genuine Parts for your servicing or repairs.
